

MISS

NUMERALS
AND THE
EXAM
RESULT
NIGHTMARE

By Rujus Dhiman

One afternoon Miss Numeral was marking exams.

But there was a problem, her most troublesome pupil, Alex, wasn't in, and so didn't do the exam,

"Oh no!" Miss Numeral cried

"Alex didn't do his test." She said

She was so flustered that she fainted!
Then...

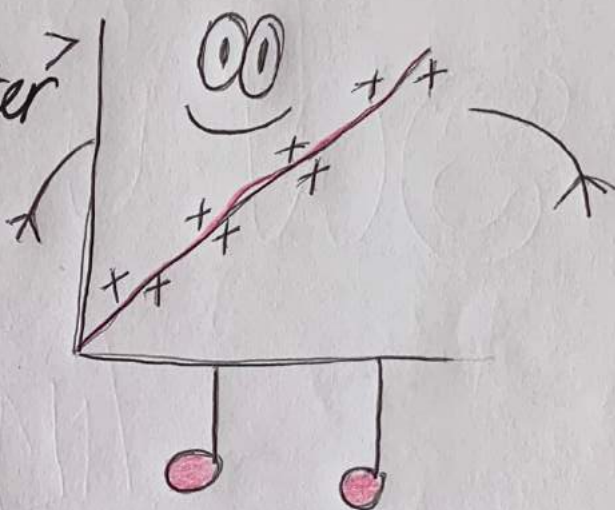

... She had an unusual dream...

A scatter graph spoke to her.

"Hello, I'm Sally the scatter graph!" Sally exclaimed

"What is going on?"

Miss Numerical asked

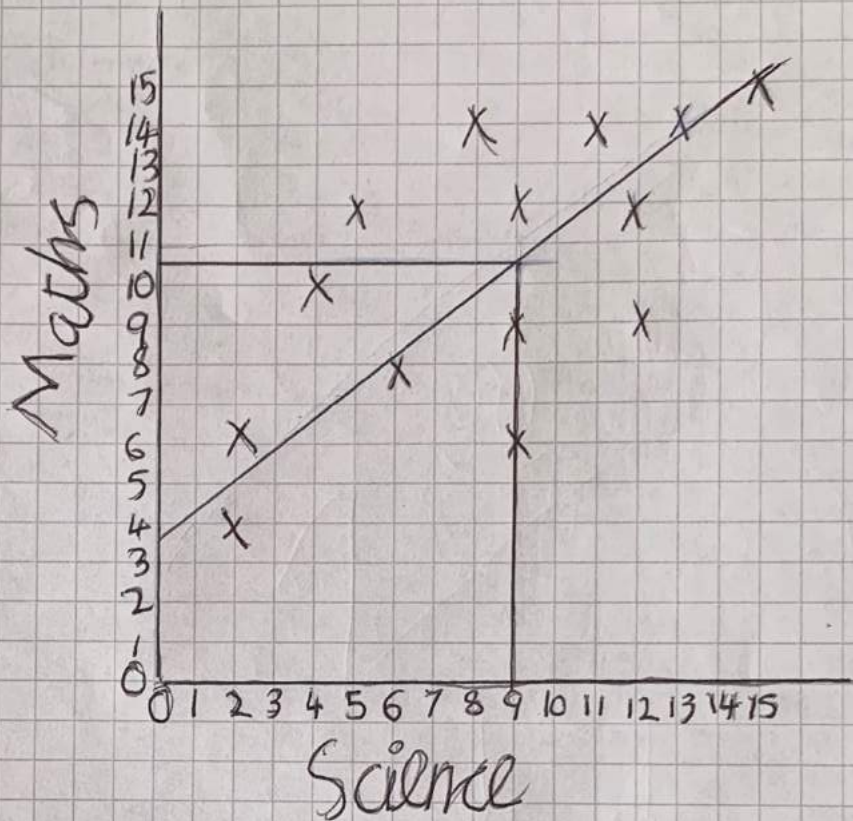

"I'm here to solve your exam result nightmare, using... scatter graphs!"

"How?" Miss Numerical said

"I'll show you." Sally said

Step 1:

Tally Mark
the pupils
results

Step 2:

Draw a line of
best fit.

Step 3:

Alex got 9 on his science test,
so go to 9 on the grid and
draw up to the line of best fit.

Step 4:

Draw to maths from the line of
best fit.

Step 5:

Now we know Alex would've got
11 on his test.

"Thank you Sally!" Miss Numerical said.

But Sally wasn't there, Miss Numerical had woken up, Miss Numerical got ready and headed to work.

To forever remember Sally, Miss Numerical used Sally as a way to teach her students about scatter graphs.

Miss Numerical will always use Sally's advice in any other situations.
This story is now over so now I shall say, The End!
